

The figure displays four histograms, each representing the distribution of a specific 'class' variable. The x-axis for all histograms is labeled 'class' and ranges from 0 to 10. The y-axis represents frequency, with a scale from 0 to 100. The histograms are titled 'class: OM', 'class: SUPA', 'class: SUPB', and 'class: ZM'. The 'class: OM' histogram shows a distribution of values with a mean line at approximately 4.5. The other three histograms (SUPA, SUPB, ZM) are empty, indicating no data for these classes.

class: SUPA

class: ZM
