

Group002
 Baseline P1 -PMA
 Baseline P2 -PMA

- Neisseria perflava
- Veillonella rogosae
- Porphyromonas pasteri
- Campylobacter concisus
- Fusobacterium periodonticum
- Veillonella atypica
- Neisseria flava
- Alloprevotella sp._HMT_473
- Campylobacter showae
- Haemophilus haemolyticus
- Haemophilus sp._HMT_036
- Gemella morbillorum
- Aggregatibacter sp._HMT_513
- Streptococcus mitis
- Solobacterium moorei
- Streptococcus oralis_subsp._tigurinus_clade_071
- Rothia dentocariosa
- Streptococcus australis
- Haemophilus pittmaniae
- Streptococcus sanguinis
- Streptococcus gordonii
- Fusobacterium nucleatum
- Streptococcus parasanguinis_clade_411
- Veillonella dispar
- Streptococcus oralis
- Gemella haemolysans
- Veillonella tobetsuensis
- Schaalia odontolytica
- Leptotrichia sp._HMT_215
- Prevotella melaninogenica
- Veillonella denticariosi_dispar_parvula
- Granulicatella adiacens
- Eikenella corrodens
- Aggregatibacter aphrophilus
- Citrobacter koseri
- Neisseria subflava
- Veillonella parvula
- Streptococcus parasanguinis_parasanguinis_clade_721
- Haemophilus sputorum
- Campylobacter concisus_nov_96.963%
- Rothia mucilaginoso
- Gemella sanguinis
- Aggregatibacter segnis
- Neisseria mucosa
- Neisseria elongata
- Streptococcus sp._HMT_423
- Streptococcus salivarius
- Veillonella dispar_parvula
- Haemophilus parainfluenzae
- Neisseria flavescens
